To the Customer

Compare the quality of our merchandise, compare the prices and then judge for yourself. If you are not fully satisfied, send the goods back at our expense

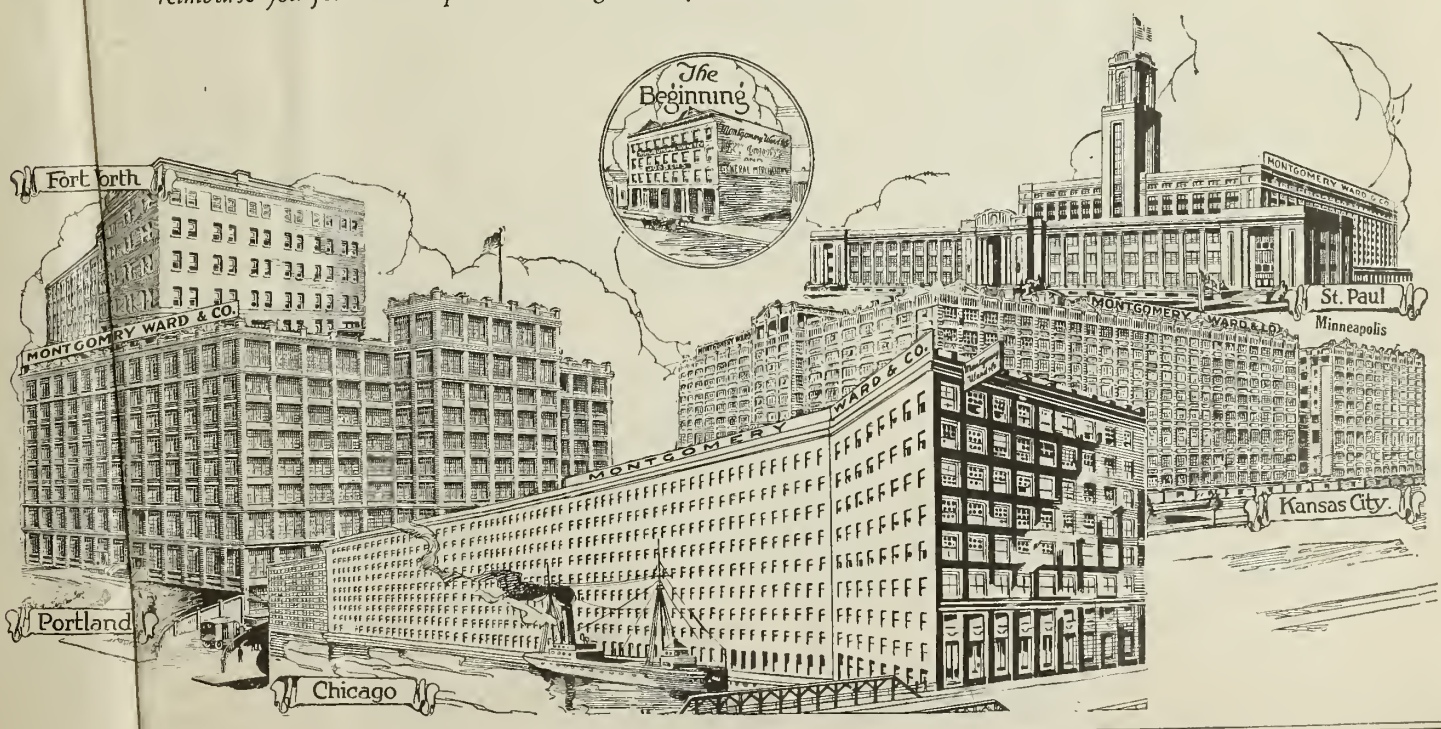
YOU, as a customer of ours, are not asked and are not expected to buy from Montgomery Ward & Co., unless we can sell you merchandise of a quality that satisfies and pleases you and at prices that mean a saving. We don't deserve your business on any other basis.

You perhaps have noticed that we call our book a Catalog and Buyer's Guide. By that we intend that it shall be not only a book of priced merchandise, but that it shall also serve you as a guide of prices and quality wherever or whenever you buy. When you see that you can benefit yourself by buying from us, then we are glad and proud to have your patronage and are grateful for it. If you ever find that the goods are not up to our description and to your expectations, then we ask you to send them back and we will refund your money or credit it to you, whichever you prefer, and we will pay transportation expenses both ways.

It was almost fifty years ago that A Montgomery Ward and George R. Thorne established this business in a small store room on Wabash Avenue in Chicago. It has grown into the present plants at Chicago and Kansas City, one now building in Saint Paul for the Northwest territory, one in Portland, Oregon, just completed, and one in Fort Worth which is soon to be expanded. In addition, there are some fifteen factories as well as a string of warehouses.

When we ask ourselves the cause of this growth, we are always forced to conclude that there is only one real cause, and it can be expressed in only one way: A square deal for the customer.

This principle is the greatest asset of Montgomery Ward & Co. It is the foundation on which this business is built, and it is the one upon which it will continue to grow. So long as we give the customer an absolute fair and square deal, and watch his interests a little closer than we watch our own, the customer will respond. He has done it steadily throughout these past years and he does it today.



So we are not wholly unselfish when we insist that every description in this catalog shall be as accurate in illustration and in words as we know how to make it. We are right when we insist that every employee consider the customer's rights as coming first, and we are sound business men when we make an inflexible rule of our house motto, "Satisfaction Guaranteed or Your Money Back".

When you use this book, we ask you as friends and as customers to do so with these, our principles, in your mind. Yours very truly,

MONTGOMERY WARD & CO.

GUARANTEE

It is our intention that every article illustrated or priced in this book will reach you precisely as described, and in perfect condition, and give entire satisfaction. You take no risk in sending us your order, for we absolutely guarantee satisfaction in every detail. Unless you are fully satisfied with the goods and with the saving that you have effected in your purchase, you are at liberty to return them at our expense. Not only will we refund the money you sent us, but we will gladly reimburse you for the transportation charges that you have paid.

It's Easy to Order From Our Catalogs

Give Name and Address

When ready to write your order you can use one of the order blanks in the back of this book. If you haven't an order blank, any plain piece of paper will do. Write your name and post office address at the top, and and then give your shipping point. We ask for this information because in some cases a customer will receive freight and express packages at a different point from his post office address. Indicate in the space provided at the top of the order blank how you wish your order shipped. Write in the article number of each item and the quantity desired. Then give the name of the article, and the price. If necessary use several order blanks to cover all the articles you need.

Please State Size and Color Wanted when articles are offered in different colors and sizes.

How to Send Money

You can send your money to us by Post Office or Express Money Order; Bank Draft; by personal check if you have a bank account; or cash, by Registered Letter. If you live on a rural route, your carrier will buy a money order for you and enclose and mail it to us with your letter. Simply give him the money and your letter unsealed. He will do the rest. We guarantee the safe arrival of money sent in any of the above ways. It is risky to send currency or coin by ordinary mail, as we are not responsible for money sent in that manner.

The Index on The Blue Pages in the Middle of this Catalog Will Show You the Page on Which the Article You Want is Described

On page 1032 of this Catalog you will find a Sample Order Blank filled in to show how very simple it is to order from us.

Order Under One Name

In order to prevent mistakes, and that our records may be correct, we urge that the different members of your family order under the name of the head of the family or household instead of in his or her own name. The name of the head of the household should always be given in the same way—for instance if you ordinarily sign your name John J. White, please do not write it J. J. White, but sign your orders with name in full—John J. White.

This will assist us in eliminating duplication in our mailing lists, and will enable us to give your communications of all kinds very prompt attention and reply.

When you change your address please notify us, giving your new R. F. D. Number or Box Number so that you will be sure to get your catalog promptly.

Parcel Post Shipments

When you order goods sent by parcel post be sure to send enough money to pay postage in addition to the cost of the goods. If you send more than is needed, we will refund the difference. The weights of your goods are given on pages containing the articles. Page 597 contains detailed information on parcel post rates.

Information about parcel post, freight and express rates, classifications, etc., will be found on pages 595 and 597.

Safe Delivery Guaranteed

We guarantee safe delivery of your order. If any merchandise is lost or damaged in transit, we make good with you first, and make claim on transportation company later. Always examine the shipment, however, before removing it from the depot, and if damaged in any way have the Agent mark the extent of the damage on the freight bill, and send this bill to us. It will help us in making adjustment with the railroad.

Plain wrappings or packages will be used when making shipments if you request it.

When ordering repair parts please give make, model and year you bought the implement or machine. If there is a casting number on the worn or broken part give us that also.

Should package to be returned contain sample write on the front of the package "Sample." If repair part write the word "Repair" on the package. Also mark envelope "Sample" or "Repair" in case you send same to us in a letter. This will help us give you better service.

Methods of Shipments

Your order will be shipped any way you wish—by express, parcel post or freight. If you are in doubt about the best way to have your order sent, leave it to us. We will ship it in the most economical way. Please bear in mind also, when having merchandise shipped by freight that there is greater saving if you build your orders up to the 100-lb. limit. It costs just as much to send 50 or 75 pounds by freight as one hundred pounds, as all freight rates are based on 100 pound weight. Transportation charges are paid by the customer on all articles except those quoted prepaid in this catalog.

Unmailable Articles. A few articles in the Drug Line and inflammable, explosive or poisonous articles are not mailable and cannot be sent by Parcel Post. These articles are so marked in the descriptions. Packages having a combined length and girth of over seven feet may not be mailed by parcel post.

C. O. D. Shipments are made upon request when orders are accompanied by one-fourth of the total amount of the order. But it saves you needless expense to send full remittances as all goods are sold under our guarantee of "Satisfaction or Your Money Back."

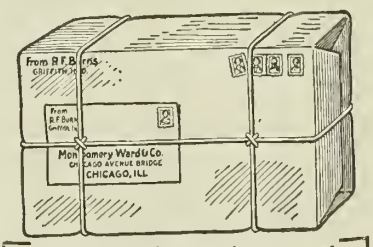


Illustration showing how parcel post packages should be marked, with letter attached

It is against the Postal Laws to Seal Packages to be Returned by Parcel Post.

Prices

The prices in this catalog take the place of prices in all our previous catalogs. It is our policy to maintain the prices in each catalog until a new one is issued.

War Taxes

There are no extra charges to our customers for war or other taxes on any of the merchandise in this catalog. We assume and pay all such taxes. The price quoted in this catalog on any article is the full cost to our customers.

When Returning Goods

Under our guarantee of Satisfaction or your Money Back you are at liberty to return any goods which do not fully satisfy you. Use any of the following methods which best suits your case.

1—If you return goods by PARCEL POST, send us a letter explaining why the goods are returned, and if you have the bills for the goods return them with your letter. Address the envelope the same as the package, and paste the envelope containng the letter securely to the package. (See illustration to the left). The letter should have a 2-cent stamp. The package will only require parcel post stamps. Do not seal the package as this is against the postal laws.

2—When goods are returned by EXPRESS, send letter in the package. Also bills if you have them.

3—When goods are returned by FREIGHT, mail letter to us with bill if you have it. Also the receipt which the Agent gave you for the shpment.

4—If the merchandise was shipped to you direct from one of our factories, write us for shipping instructions before sending back the goods.

Things to Remember

When checking over your order please see that you have omitted none of the goods you intended buying from us.

1—Be sure that you have given your ull name and address, and on a separate slip of paper your old address in case you have moved recently.

2—Be sure to mention both Post Office and Shipping Point if they are not the same.

3—See that you have given correct aricle numbers, size, colors, etc., of each article ordered, and enclose a sample when necessary.

4—On all goods not marked "Prepaid' in our catalog be sure to enclose sufficient money not only to pay for the merchandise ordered, but additional money to pay carrying charges if you want the shipment sent by parcel post or your station is a "Prepay" point.

Be Sure to Give Correct Measurements. On page 596 of this catalog you will find complete directions for taking accurate measurements. If you follow these directions carefully you will receive wearing apparel that will fit you. We suggest that you follow the simple directions given on page 596 when sending us your measurements, even though you feel certain that you know what sizes you do take.

When ordering repair parts please give make, model and year you bought the implement or machine. If there is a casting number on the worn or broken part give us that too.

Do not return parts of a suit. If it is necessary to make an exchange please return the whole suit. This avoids confusion, mistakes and saves time.

INTRODUCING THE NEWEST FALL AND WINTER FASHIONS

The prettiest, the best and the newest fashions in the Parisian, New York and Chicago markets are here gathered for your selection. The style range is so wide that you are sure to find something to suit you, no matter what your taste or need.

Every garment we show has had to measure up to a high standard of excellence in style, material and workmanship; and it had to be a bigger value than you can buy anywhere else.

Behind each article you select stands our unqualified guarantee of satisfaction. It must satisfy you perfectly as to fit, style, material, workmanship and value, or we will gladly return your money and pay transportation charges both ways.

You will find Montgomery Ward & Co. styles, values and service this year better than ever before. Look through our fashion pages in this catalog, and you will see distinct evidence of this.

This Season's New Style Features

The new coats for Fall and Winter wear tend toward loose and wrappy effects. Collars in many cases are so big as to almost threaten to swallow up the garment. Cuffs are inclined to be large, in keeping with the collars. Almost any sort of sleeve is used. Most coats are cut the length of the skirt, although coatee and three-quarter length models will continue to be popular.

The backs are particularly handsome this season and are often trimmed with pleats to give a panel effect. Many are held in by all-around belts. It is fashionable, though, to let the backs hang loosely from the neck or yoke. Pin and cord tucks are largely used for trimming, with stitching and buttons next in popularity.

The vogue in coat materials this year runs to fur fabrics, pile plushes and soft, wool cloths, such as velours, silvertones, polo and polo velour—the latter a soft, woolly velour resembling polo. Brown promises to be a very popular color.

To be in style this season your suit should follow the new straight-line silhouette. The coat should be three-quarter length with the fullness held in at the natural waist line by a narrow all-around belt. The most fashionable trimmings are tucks, silk braid, stitching and buttons. Suit skirts follow the straight-line silhouette and are narrow and short.

The new dresses have the narrow and short silhouette, as contrasted with last winter's narrow and long lines. Wherever one looks, one sees a sash or girdle of some sort about the waist line, which is normal. Basque effects are also popular. Bouffant hips continue to be very stylish, although many dresses appear without them. Designers are also using tunics to good effect.

Long sleeves are again coming into style. Many smart models continue to show short sleeves. For trimming, the new dresses rely on tucks, braid and embroidery. Some very fashionable costumes are displaying the new tucked-in elastic, or harem, bottom.

Hats with off-the-face effects promise to be very much in vogue. Many shapes from Paris, however, are showing turned-down brims. The crush or tam crown appears on many of the newest models. Feathers and bright tinsel effects are very fashionable.

Prices Cut the Limit

To receive more for your money brings down the high cost of clothing. And you do this on every garment you buy from us.

Many of the materials used are being given you at last year's low prices. Other big savings are yours on garments made up in large quantities at low cost during the manufacturers' dull season. To give you still greater values, we have cut our own profits to the bone.

These savings are yours without any sacrifice of style, material or workmanship. In fact, they are better than ever before.

Handsome New Model

This handsome coat of All Wool Silvertone Velour should particularly appeal to you because it offers so many desirable features. Much of its distinction is due to the smart lines of the flare back and the desirable trimming of cord tucks.

The material, a blending of dark and lighter fibres, combines beautifully with the unusually deep collar of Kit Coney fur. This collar forms a wide shoulder cape or may be worn buttoned high.

The deep set-in sleeves end in wide tailor-stitched cuffs. The back may hang loose with the belt passing through side slots, or gathered under an all around belt. Lined to the waist with novelty sateen; wide facings of self material and neatly bound seams. Ship. wt., 4 lbs., 2 oz.

SIZES: 34 to 46. Length, about 48 inches. Be sure to mention size when ordering.

All the New Style Features

Such good values, and so characteristic of this season's new styles were these two coats, that they simply had to have the opening page of our coat section. They have the beautiful lines of the loose, wrappy coats that are so fashionable this year, and yet have been modified in a way that makes them very practical.

Both have wonderfully big and luxurious looking collars of real fur. At a time when fashion calls for collars so big as to be almost capes, they add a particularly stylish note to the garments.

Both of these coats are recommended as among our very best values.

The Latest Wrap Coat

The becoming style of this new Wrap Coat makes it the garment you want for general and dressy wear. It is cut along the new, smart lines so popular in fur coats and developed in a fine quality Silk Seal Plush. This material, with its deep pile and soft lustre, gives a rich effect very much like real fur at a fraction of the cost.

The large fur collar of genuine Kit Coney will particularly please you because it adds to the luxurious appearance and warmth of the coat.

The new set-in sleeves with deep cuffs are modelled after the very latest style. Welt pockets and buttons covered with self material. The belt may be worn all around the outside or slipped through side slots so that the back hangs loose. It is lined throughout with good wearing quality cotton twill. Ship. wt., 5 lbs., 2 oz.

SIZES: 34 to 46. Length, about 45 inches. Be sure to mention size desired when ordering.

Last Word From Paris

After all the new styles available had been included in our coat line, our buyers went out into the market in a final effort to secure the very newest modes, and here they are.

The handsome Seal Plush wrap is just off the steamer from Paris. Coat No. **10C626** has been copied from an imported model just brought over. No. **10C632** is another imported style. All are being offered at remarkably low prices.

Three very fashionable fabrics have been chosen for these coats. Each is particularly adapted to the style of the wrap, is very good looking, and the kind of material you would expect to find in more expensive garments.

In selecting any of these coats you will have procured not only the newest, but one of the finest wraps we have seen in many a day.

The New Wrap Coat

You will simply revel in the flowing lines of this handsome Wrap Coat. Without exception it is the most stylish and dressy wrap we have ever seen and is a copy of a direct importation from Paris.

The luxurious collar falling to the waist almost makes a cape of the garment because the lines are so generous and graceful. Under the collar are sleeves little more than wide cuffs which give additional warmth and are in keeping with the loose lines. A broad band of the Plush is set on the collar and trimmed in front with large self-covered buttons.

The deep pile of this Silk Seal Plush is so rich and lustrous in appearance that it looks much like Hudson Seal. It is the best wearing Plush you can buy. Like the fur models this wrap has a beautiful figured silk lining throughout. Shipping weight, 5 lbs. 4 ounces.

Advance Styles for Stout Figures

Slenderizing Coats

You need no longer envy the slender woman her smart, youthful garments. Exactly the same chic styles are here available for the full-formed figure.

The charm of the large woman lies in her queenliness, poise and grace—a youthfulness that is never undignified. The real beauty of the Juno-figured woman is at last being recognized.

Graceful, long-lined -- yet with all the smart touches that distinguish the latest modes —each of the ten coats on these pages is skillfully designed to bring out the air of height and individuality that belong to the generously proportioned figure.

They are not simply larger sizes in the regular women's garments, but have been especially fashioned for the shorter-waisted stout figure.

This same skillful designing you will find applied to the stout suits on page 54. They are cleverly proportioned to bring out the attractiveness of the full figure.

Order one of these coats or suits for yourself. Try it on and see if it does not do all that we claim for it. Then if you are not fully satisfied, you are welcome to return it. They are all priced very low.

Stout coats or suits can be ordered just as you would our regular sizes. Instructions are given you on page 33. Stout sizes run in odd numbers as distinguished from the even numbers of the regular sizes. These odd numbers are 39, 41, 43, 45, 47, 49, 51 and 53.

The New Styles in Blouses

As you glance over our blouses this season, you will be struck with the smart new styles—inspired by the best French and American designers.

Among the new blouses the normal waistline predominates, but a very new and attractive style is the basque or some adaptation of the peplum, usually with a sash.

The round neck is the most popular. Some stylish models, however, come with the square or V neck. Strictly tailored models almost invariably select the V or square neck.

Collars take many different forms, from a simple ruffle of lace to a large sailor collar, while some of the dressiest blouses have none at all, and are finished with a fold of the material.

Almost every kind of sleeve is seen this season. Both long and short sleeves are fashionable. Silk and Georgette usually favor the kimono sleeve, while tailored blouses are at their best in the set-in.

There are all sorts of novelty cuffs, bell-shaped, slit, frilled, lace-trimmed or cunningly embroidered.

Trimmings are infinite, with silk embroidery most favored for the dressy waist. Tucks are also popular. Beads, buttons and ball ornaments are very stylish. Lace medallions and frilly lace edging are good in the wash waist, and accordion pleating—used in everything—makes a smart trimming for cuffs or neck.

No matter what your figure, among these pages there is a suitable blouse for you in one of the season's best styles. The generously proportioned woman will find stout sizes on pages 26, 27, 28, 29 and 30. The young miss has a whole page, number 31, devoted to her needs.

The prices on all these blouses have been cut to the limit. You save on materials bought months ago far below today's prices. Other big savings are yours on blouses made up at special low rates during the dull season, and to make these still greater values we have cut our own profits to the bone.

Your Clothes Will Fit

If You Follow These Suggestions

How to Take Your Measurements

Our garments are so well designed that it is easy to be fitted, if you will follow these suggestions exactly as they are given. It is best to have someone else take your measurements, because it is almost impossible to take them correctly yourself. Use an accurate tape line which does not stretch and have the measurements taken snugly, but not too tight, over a waist or skirt.

Make No Allowance Whatever for Fullness We Do That

BUST MEASURE: Over a close-fitting waist or dress place tape line entirely around the body, tell up across the shoulders in back, close up under the arms, and have it meet across the fullest part of the bust. If necessary, pin tape at back to prevent slipping down.

WAIST MEASURE: For either regulation waist and or girdle-top skirts, measure over your skirt all around the natural waist line to where tape measure meets in front. The number of inches shown by your tape is your proper waist measure.

HIP MEASURE: Place tape line around fullest part of hips over your skirt 7 inches below your natural waist line. Figure 1 shows tape line meeting in front. Do not allow tape measure to slip up or down. The number of inches shown by your tape line is your proper hip measure.

FRONT LENGTH OF SKIRT: Measure from your natural waist line in front down to whatever length is desired.

When Ordering, Give These Measurements

Dresses for Women—Women's dresses are sized according to bust measurements. When ordering, give actual bust, waist and hip measurements and the front skirt length desired.

See above, How to Take Your Measurements.

Dresses for Maternity Wear—When ordering, please give normal bust and waist measurements. The dresses are designed to take care of the additional fullness of figure.

See above, How to Take Your Measurements.

Dresses for Misses and Small Women—Before ordering, take your accurate bust measurement and skirt length. Then compare your own measurement with those printed in the table below and order the size that most nearly meets your requirements. Every dress is made with a deep hem and may be adjusted to conform to your measurements.

See above, How to Take Your Measurements.

Size: 14 years. Actual bust 32 inches. Skirt length 34 in.
Size: 16 years. Actual bust 34 inches. Skirt length 35 in.
Size: 18 years. Actual bust 36 inches. Skirt length 36 in.
Size: 20 years. Actual bust 38 inches. Skirt length 37 in.

Dresses for Junior Misses—These are especially designed for the immature figure and are sized according to age and correctly proportioned in each size. Before ordering, take your actual bust measurement and front skirt length desired. Then consult the following table of measurements, and order the size that most nearly meets your

Size: 15 years. Actual bust, 33 inches. Skirt length 34 in.
Size: 17 years. Actual bust, 35 inches. Skirt length 35 in.

Dresses for Girls—Before ordering dresses 7 to 14 years, compare carefully the measurements wanted with those given in the corresponding size scale below. Then order the size corresponding most nearly to the measurements required.

See above, How to Take Your Measurements.

Size: 7 years. Back Skirt length 27 inches.
Size: 8 years. Back Skirt length 28 inches.
Size: 10 years. Back Skirt length 32 inches.
Size: 12 years. Back Skirt length 38 inches.
Size: 14 years. Back Skirt length 42 inches.

Suits for Women—In ordering, give us your bust, waist and hip measurements and front length of skirt desired. All these measurements should be taken over your shirt waist or over your dress. Make no allowance for fullness whatsoever. These suits are cut so as to allow all necessary fullness.

See above, How to Take Your Measurements.

Suits for Misses and Small Women—These are especially proportioned to fit and suit the youthful figure. Order by the age which corresponds most nearly to your measurements, and be sure to state which skirt length is desired. The skirts of all these suits have wide basted hems, which may be easily adjusted.

See above, How to Take Your Measurements.

Size: 14 yrs. Actual bust, 32 inches. Skirt length 34 to 36 in.
Size: 16 yrs. Actual bust, 34 inches. Skirt length 36 to 38 in.
Size: 18 yrs. Actual bust, 36 inches. Skirt length 37 to 39 in.
Size: 20 yrs. Actual bust, 38 inches. Skirt length 38 to 40 in.

Skirts for Women and Misses—The skirt you order should fit perfectly, if you will give us your actual waist and hip measurement and front skirt length desired.

See above, How to Take Your Measurements.

Coats for Women and Misses—Including Fur Coats and Raincoats—Before ordering, take your actual bust measurement. Make no allowance whatsoever. For instance, if your bust measures 38 inches, we give you size 38. The coats are cut very full and generous and we make all allowance for fullness.

See above, How to Take Your Measurements.

Coats for Girls—Before ordering, read carefully sizes and lengths given in description for each coat. Lengths differ according to the various sizes and styles of the coats. Then order by age and if your daughter is large or small for her age, let us know what age she is usually taken for. Be sure to order your coat large enough.

Coats for Children—Before ordering coats for children from 3 to 6 years old, compare lengths given below corresponding to the various sizes. Then order size nearest to length required.

Size: 3 years. Length at back from neck to hem, 23 inches.
Size: 4 years. Length at back from neck to hem, 24 inches.
Size: 5 years. Length at back from neck to hem, 25 inches.
Size: 6 years. Length at back from neck to hem, 26 inches.

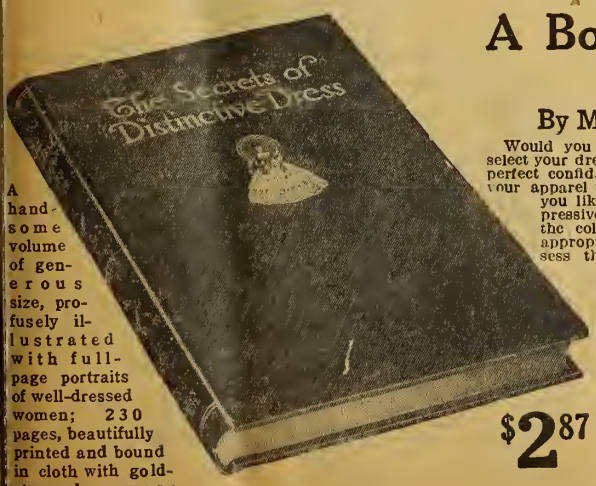
Waists for Women and Misses—All waists for women and misses should be ordered according to sizes given in the descriptions of the garments.

See above, How to Take your Measurements.

House Dresses, Kimonos, Bath Robes and Aprons for Women and Misses—These should be ordered according to sizes given in the descriptions of the garments. See instructions on How to Take your Measurements.

Petticoats for Women and Misses—In ordering, give the front length desired. See above, How to Take Your Measurements.

Pettibockers for Women and Misses—These are carried in three sizes—large, medium and small. Elastic in the waistband and at the ankles makes them adjustable. When ordering, mention size desired.



Bath Robes, Aprons and Raincoats for Children—When ordering, give apparent age. If your child is large or small for her age, let us know what age she is usually taken for.

Hats for Women—All our trimmed hats for women have adjustable Pullastic lining which may be adjusted to fit any size head.

Paris-Inspired

You can tell in a minute that these three fascinatingly beautiful gowns are copies of real French importations. There is something distinctive and smart about them that puts them in a class by themselves. They ought to be—for they are copies of the very newest models just over from Paris.

But these are not the only Paris-inspired styles in our line. Our other dresses are all adaptations from the newest and prettiest creations of French and American designers.

And how truly wonderful the new gowns are this season. There is something refreshingly new and beautiful about them that appeals straight to the feminine heart.

To learn about them read the style talk on page 3. The instructions for measuring you will find on page 33.

La Gracieuse

From the exquisite little lace collar and vestee to the stylish Harem bottom, this is a model of refreshing newness and beauty. Lustrous Satin Messaline is just the material for these graceful lines.

The new basque is charming with its soft gathers at the side and the U neck curving below the vestee. In back a peplum gives a smart coatee effect and is trimmed with a row of self-covered buttons from neck to edge of peplum. A final dressy touch is the large bow of self material.

Perhaps the most unique feature is a lining of messaline in contrasting color—on the novelty cuffs, caught back with a small button, and in the new pouch pockets. A cording of self material makes a smart finish for the basque, pockets, neck and armholes.

Elastic in hem may be removed when desired. Invisible side closing. Lawn lining to waist. Shipping weight, 1 lb. 6 ounces.

Silk Georgette Crepe

The grace and beauty of this new Silk Georgette Crepe gown makes it just what you want for dressy wear. Paris insists upon beads for some of the loveliest new models and they form the chief trimming.

An elaborate design in beads and embroidery almost covers the front of the waist and trims the sailor collar in back. The tunic hangs gracefully from under a wide belt of the Georgette and is embroidered all around with a beaded design.

Sleeves, long and graceful, have flare cuffs with double ruffles, picot-edged. Invisible side closing. Lining of silk and cotton Japonica. Shipping weight, 1 lb. 10 ounces.

Satin Messaline

In this new gown of Satin Messaline you will find one of the most graceful versions of the tunic. Parisian designers like to be just a trifle different from everybody else and here they have draped the messaline over one hip in a very original manner.

The other side has a novelty tucked sash, trimmed with a fancy buckle and tiny self-covered buttons.

At the neck, the new vent is partly closed by buttons and attractive little straps of the messaline and the becoming net collar is daintily embroidered. Long sleeves with graceful bell-shaped cuffs.

Lined to the waist with Batiste. Invisible side closing. Shipping weight, 1 lb. 8 ounces.

Silk Crepe de Chine

Paris is the inspiration behind this new gown of beautiful Silk Crepe de Chine. French imagination has combined the popular accordion pleats with a wide plait in back and a gracefully draped tunic in front.

The waist follows these same free lines and is held in at front and back by the belt with loop and sash, picot edged. Heavy silk embroidery and beads trim the front and tiny pin tucks form a cluster below the round neck.

Long sleeves are a graceful bell shape with silk and bead embroidery on the loose cuffs. Lined to waist with Japonica silk. Invisible front closing. Shipping weight, 1 lb. 10 oz.

New Style Features

This lovely model of Tussah Silk and Cotton has many of the most popular style features. The graceful tunic is especially up-to-date with its rows of narrow tucks. Tucks combined with small, self-covered buttons also trim the new bell cuffs, which are split to the wrist.

A dainty tab collar of lace is fashionable and gives just the right finishing touch required by most people. The front embroidery of contrasting color makes a handsome design.

The material is soft with a lustre much like messaline and adapts itself to the lines of this dress and to the colors in which it is offered.

Lined to the waist with white lawn. Invisible side front closing. Shipping weight, 10 ounces.

Dressy and Practical

All the style of a more expensive garment is put into this dress of Mixed Serge. It is more than half Wool and will wear well for Fall or Winter.

While it is primarily for everyday practical use, the elaborate braid embroidery gives a very dressy effect. Rows of buttons add a smart touch to the sides and are quite the thing in tailored garments.

The long lines from shoulder to hem are broken by a graceful sash belt tied a bit carelessly over one hip.

Black silk braid completes the popular round neck and well-fitting sleeves. Dress lined to the waist with lawn. Invisible side closing. Shipping weight, 1 lb., 10 ounces.

Smart Eton Jacket

Typical of youth in every line and very new, this graceful dress will prove wonderfully becoming to misses and small women. More than that, it is made of finely woven French All-Wool Serge, a material which wears well and gives a distinguished appearance to any dress. The skirt is accordion pleated all around except at back and front, where the pleats are boxed in a clever combination.

This version of the Eton jacket retains a Spanish feature in the loops of narrow black and gold braid which edge the jacket and sleeves of elbow length. A vestee and wide all-around belt of silk messaline in a smart blue and brown plaid complete the stylish effect. Skirt is attached to a lawn waist lining. Invisible front closing. All Wool Serge

Although simple in style, this is one of the most attractive of the Fall and Winter models. It is very trim in appearance and becoming to the average woman. Fine quality All Wool Serge is used to fashion this suit on very well-fitting lines.

The picture shows you the front of the suit and the stylish button trimming; the novel pockets and the large collar of self material. The back has two narrow full length box pleats. Below the waist line there is a panel-effect trimmed with buttons. Buttons also trim the shoe string belt which crosses in front and the tailored mannish sleeves.

Coat is durably lined with novelty sateen and has warm interlining. The straight line skirt is shirred at the waist line in back under the half belt of self material and fastens invisibly at the side. Shipping weight, 2 lbs.

Advance Fall and Winter Models

Your New Hat

chosen from these pages is sure to be smart and up-to-the minute. You have the satisfaction of feeling that it is one of the season's newest and best styles. And behind it lies the inspiration of well-known French, English and American designers.

The hats on the first seven pages will fit any size head, as they have the adjustable Pullastic lining. For details see 12C4506 on page 75.

New Style Features

Off-the-face effects promise to be very fashionable, although Paris shows many models with turned-down brims. Smaller shapes predominate—turban and narrow-brimmed hats. The crush or tam crown is very popular.

Duvetyn, and flat-pile fabrics, such as silk faced Lyons or panne velvet, are the fashionable materials, although the usual erect-pile fabrics and satin are still good.

Feathers are all the rage this season. Shiny tinsel effects are also very good. Brown promises to be a favorite color.

Silk Faced Velvet and Satin

Why pay a high price for a trimmed hat when you can buy an untrimmed hat like this and trim it yourself at a very low cost.

It is fashioned of good silk velvet and lustrous satin in harmonizing colors and has smart becoming lines that are rare in a hat priced so low. You can find suitable trimmings on pages 74 or 75. A feather wreath and plume, a feather fancy or some flowers would make an appropriate trimming at very small cost to you.

You will then have a handsome dressy hat suitable for any occasion. Shipping weight, 1 lb. 5 ounces.

Manchurian Wolf Dog

Woman's coat of fine Manchurian Wolf Dog skins, warm enough for the most severe weather.

Manchurian Wolf Dog is a long-haired dense fur, very lustrous, and will give satisfactory wear.

The coat is a full length model, fastened with large novelty buttons. Smart and luxurious style is given by the large shawl collar and wide bell cuffs of natural Jap Cross Fox. This is a tannish, long-haired dense fur, with black markings, and provides a handsome contrast to the black fur of the coat. It also gives splendid service.

A strong quilted lining of durable satin gives the coat additional warmth. The all-around belt of self fur may be slipped through the sides and worn inside the back of the coat, giving the fashionable flare effect. The belt may be worn on the outside all around if preferred. Convenient slit pockets at each side.

This is just the coat you need on the cold winter day. Whether you are walking or driving, you will find it a splendid protector.

Note the very reasonable price.

Sealine, Nearseal and Hudson Seal

This model was selected for the woman who wants a rich-looking coat, who wants service and who wants style. Its dressiest features are the large collar and deep bell cuffs of beautiful Australian Opossum. Australian Opossum is a natural grayish blue fur with lighter markings, closely resembling Chinchilla.

The coat is one of the latest flare models, made of fine Sealine skins, a lustrous imported sheared Coney which can hardly be distinguished from Hudson Seal. Two chamois-lined pockets in front. Fine quality figured silk lines the coat throughout and forms the wind shields in the cuffs. Protective arm shields.

It can also be supplied in a fine selected Nearseal, which is a sheared French Coney, and in Hudson Seal (dyed muskrat). Shipping weight, 6 lbs. 6 ounces.

SIZES: 34 to 44.
Length: 36 inches.

About Sizes of Furs and Muffs

The pictures of furs and muffs on this and succeeding pages will give you a good idea of their sizes. Great care has been taken to show them in proper proportion as compared with each other and with the figures on which they are shown. To attempt to quote sizes in inches would be misleading, because it is impossible to secure choice skins all exactly one size. While the bodies of the furs do not vary much in size the tails will vary slightly in length, sometimes from two to three inches. The shorter tails are usually very bushy. In selecting your scarfs or muffs you can rest assured that the size will be just what you would expect from what you see in the illustrations.

How to Order

Give your corset size if you know it, or take your waist measure tight over the corset you now wear, and for front lace or topless corsets subtract one (1) inch. This allows for lacing. Thus, if your waist measure over your corset is 24 inches, order corset size 23. For back lace corset subtract two (2) inches. In ordering, always give your corset size, not your waist measure.

Three Complete Outfits for the New Baby

Baby's First Clothes

Every mother takes the greatest delight in the selection of baby's first clothes. They must be the daintiest and softest garments procurable, as nothing is considered too good for the new arrival. The garments in these layettes are as dainty as any woman could wish for. Baby's health and comfort have been seriously considered in the selection of every piece included in these three groups, and the garments are of the same superior quality as those listed separately on the other pages of this book. For your greater convenience they have been grouped into these layettes. They are assembled in our own store under personal supervision and we know they are spotlessly clean and sanitary. The layettes are all priced very attractively and they are all that can be desired in quality and value.

Genuine Vanta Knitted Vests

Genuine Vanta Knitted Vests

Mothers need no introduction to the merits of the Vanta vest. National advertising and proved worth have convinced our customers that these garments have a decidedly superior standard of excellence. We have handled these vests for years and their popularity is proved by the demand of our customers for them. These garments are endorsed by widely known health experts. They are double thickness across the chest and abdomen, giving ample protection where it is most needed. Never too tight; and never too loose—they hold their shape and snug fit. Fastening entirely on the sides, you do not have to turn the child over. Only best selected yarns, finely combed, are used, fastened with twistless tapes which lie flat. Elastic jersey ribbed. All seams sewed flat to prevent irritating.

When ordering, see table at top of page.

Wardwear Infants' Common Sense Vests

Wardwear common sense vests are designed and made especially for us. They embody all the good qualities of a knitted vest for infants. They are constructed of the finest material and the softest yarns obtainable. Finished throughout with smooth, flatlock seams that will not irritate the most sensitive skin. The double thickness across chest and abdomen makes them a warm and healthful garment. There are no buttons or tie strings—they fasten in the back with a single safety pin. See table at top of page.

Ideal Patterns

SEAM ALLOWING

The Latest Styles for Fall and Winter 1920–1921

Ideal Patterns have been selected with the end in view of helping those who use our patterns to easily make any of the styles shown on this and the following pages, of materials they like best. Ideal Patterns are all designed to be absolutely practicable.

Dressmaking at home is no longer drudgery or mere guess work. With the help of Ideal Seam-Allowing Patterns you can put into your own work those elusive little style touches that have been the property of the professional dressmaker.

Ideal Patterns show the way to lower the cost of wearing apparel. Save the manufacturer's cost, which is no little item these days.

COMFORTERS

Our Comforters Are Made Right

In order to insure the American housewife clean, sanitary, well made comforters we manufacture them ourselves. We know that the filling is entirely of new material, sweet smelling and wholesome because these comforters are filled in our own factory. We know that the scroll stitching is done well because it is done under our own supervision.

Some manufacturers in order to produce a cheap comforter use a filling that has been used in other bedding. There is nothing more unsanitary than the use of a filling that has been used before and discarded in a filthy condition.

You are entitled to the best comforter that can be made, with a clean, wholesome, new and sanitary filling, and in buying the comforters listed on this page, you get all of this and more—you get a comforter that has been measured after it was finished in order to determine its size, and not a comforter that was measured before it was sewed without allowing for seams.

We guarantee these comforters to be as represented—because we make them ourselves.

What We Mean by "A Pair of Blankets"

A pair of blankets is two blankets woven in one continuous length. In other words, if a pair of blankets is quoted as measuring 72x80 inches you will get two blankets woven in one length that will measure 72x160 inches. Practically all bed blankets are woven and sold this way. Most people prefer to use them just as they are woven. However, they can be easily cut apart and used as two individual blankets.

Here's the ideal batt for making fine, serviceable, home-made quilts or comforters. They are so firm and easy to handle you will really find the work a pleasure. Stitched batts have every advantage over the ordinary type of cotton batting. The stitching which is clear across their width at about every four inches, serves as a reinforcement to hold the cotton together thus giving firmness to the cotton and preventing lumping in the finished comforter. Try this easy, improved way of making comforters.

Preserve Your Fine Mattresses

Firmly quilted, sanitary crib pads and mattress protectors. Filled with a good quality cotton and covered with a strong bleached muslin. Edges are neatly finished with a binding. These protectors absorb all moisture and protect your mattresses from injurious stains. The smaller size pads are for use in cribs. Now, when mattresses cost so much it is wise economy to protect them, for this adds years of wear to their life.

Six Cord Thread

No Thread— Here is the Reason

Almost a year ago we anticipated a shortage in the supply of thread and bought for last Spring's trade about 400 per cent over the quantity usually sold. We bought at a low price and offered it at a price below the market. Even with that large purchase we were bought out of thread before the end of February and thousands of our customers sent in orders later only to be disappointed. We decided that we would avoid a condition that was unsatisfactory to our customers and to us and so for the term of this Catalog we will not quote thread as we cannot furnish it.

18 Section Adjustable Dress Form

The more sections the more adjustments. In the manufacturing of this dress form the height of perfection has been attained. It is scientifically divided into 18 sections, operating on friction slides, giving an unusually wide range of adjustments. This form collapses to about half size, and is packed in a special crate. Not mailable. The following adjustments can be made on this wonderful form.

Neck—Large or small.
Shoulders—Broad, narrow or sloping.
Bust—Full, flat high or low.
Waist—Long or short.
Hips—Six sections, any adjustment, one hip can be made larger than the other one. In fact, there is no limit to the range of various shapes and forms that may be obtained and duplicated by the use of this form.

Beat the High Cost of Dress Making with the Thornward Adjustable Dress Form

Permits 18 Adjustments

Can be adjusted to make any style or fashion of waist or dress. Durably constructed, simple to operate. Adjustments are made from the outside without changing the position of other parts. No trouble, no guesswork, no mistakes. Something you can use for years, and every time you use it you save money. Styles may change, the dictates of fashion may decree an entirely different garment from that now being worn, but with the aid of the easily adjusted THORNWARD Sectional Dress Form, you can, in a few hours, make the changes necessary and be up to the minute in style without any excessive dressmakers' expense.

Upper part is make of fibre papier mache, covered with Jersey Cloth, which permits pinning and draping with ease. It can be made long or short waisted; broad, narrow or sloping shoulder.

Back, front and under-arm can be lengthened independently of each other. Waist and hips made smaller. High or full bust.

Skirt parts are of stamped nickeled steel. Skirt is adjustable, and made of continuous flat steel bands, reinforced throughout. Metal extension standard permits lowering and raising to any skirt length. Two sizes. Not mailable. Ship. wt., abt. 35 lbs.

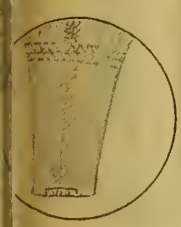
WardWear Union Suits

Here's Real Comfort

lip into a Wardwear Tailor Made Union Suit. You will over what perfect underwear comfort and complete under- r satisfaction means, and in addition you will realize, in r second and third seasons' wear, that the secret of true terwear economy is—Wardwear Tailor Made.

nly the highest grade materials and the finest workmanship er into the making of Wardwear garments. They are the st we can offer you at anywhere near these low prices. re are some of the special features. Military shoulders that not sag. Flat, smooth seams. Collarette neck. Seams ked and reinforced to prevent tearing out. Our famous user seat closed crotch, or the perfect fitting, three-button op seat if preferred. All button holes extra stitched.

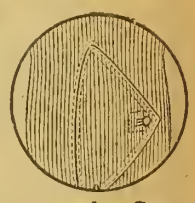
Special Wardwear Features



Military Shoulders

This special feature found only in garments of the better grade, is standard on all Wardwear union suits. A strip of strong elastic-ribbed knitted fabric is set into the shoulders. This gives additional strength and removes shoulder strain when stooping. This feature also tends to hold the garment snugly to the body without looseness.

Closed Crotch



The perfect fit of our Wardwear crotch is obtained by inserting a piece of elastic fabric at crotch which eliminates all tendency to bind or gap and results in garments as well constructed for comfort as tailor-made trousers.

Flatlock Seams

All seams are flat and smooth. They cannot irritate the flesh. Strongly stitched and reinforced at ends to prevent ripping. The last word in correct seams. Thoroughly comfortable.

Full Fashioned

What it Means to You

Full fashioned underwear is shaped and formed in the knitting, to fit the figure. It is not cut and sewed together as in the ordinary union suit. This knit to fit construction requires specially designed machinery which produces a permanently elastic garment, that fits as well or better after repeated washings as it did the first time worn. The cuffs and ankles are knitted or looped on, eliminating seams at these points.

Every garment is shaped and fitted with special care. All details are carefully checked, and only perfect garments accepted for sale to our customers.

Tailor-Made Underwear

WardWear
TRADE MARK

Knit to Fit the Figure

Comfort—that is the paramount virtue of Wardwear Tailor-Made Underwear. The garments are so fashioned as to give to the figure trim, smooth lines of fashion when worn with either heavy or light weight clothing, and secure proper protection outdoors in the coldest weather without being the least bit uncomfortable indoors. There's not a wrinkle, nor any extra fullness anywhere. No bunching up under the arms, or falling over the tops of the stockings. No catching or pulling, for the wonderful elastic knitted fabric follows every movement you make.

The good tailoring, the fine fabrics and dainty, yet durable trimmings of Wardwear garments appeal to women of discriminating taste. Only the finest wool, pure silk, and select combed cotton are used in the tailoring of these garments, and not a single detail which makes for comfort or convenience is overlooked.

You will find this suit more comfortable and durable because it is knit without a seam at the waist. This innovation in underwear is accomplished by knitting very fine lisle thread yarn at the waist line. This feature is one of the latest improvements in women's fine underwear. Suit is knit of best grade cotton. Full sized. Crocheted shell edge trimming and flat lock seams. A comfort suit for service and warmth.

Though heavy enough for cold weather wear, these garments are not bulky, but make a proper fitting foundation for neat dress. They are part wool. The closely knit fabric adjusts itself to every movement of the body. Soft, smooth and non-irritating, any one of the three styles shown here will prove a revelation in really good underwear. Nicely finished with crocheted edging or tubular band necks and armholes. The prices quoted are reasonable for such high quality, faultless fitting garments.

IMPORTANT

Our wool yarns are made from selected grades of long combed fibres evenly spun and very lofty. We do not sell yarns made from short wool ends which are prepared by a process of carding, and consequently do not have the wearing qualities of our yarn. It is advisable to order sufficient yarn at one time to complete the garment planned in order to insure uniformity of color. Pull ball from center.

Silk and Wool Sweater Yarn

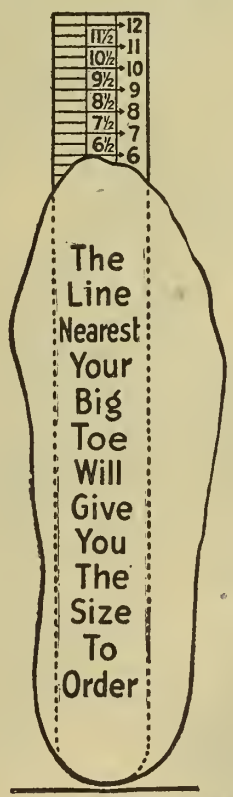
and Infants



Place the Stick at the Bottom of this Dotted Line

And Don't Forget to Mention the Size and Width on your Order

There are several reasons for our asking you to be sure to write your correct shoe size and width ON YOUR ORDER. When your shoes fit right they look better, are more comfortable and always wear longer. If you don't know your correct size be sure to use the charts on this page—they are very accurate and simple. Also mention all the numbers which you will find inside the shoe that you are now wearing if it fits you comfortably.

Explanation of Widths for Shoes Only

A	Extra Narrow	E	Wide
B	Narrow	EE	Very Wide
C	Medium Narrow	EEE	Extra Wide
D	Medium	EEEE	Widest Made

Do Not Use This Chart To Fit Rubbers

When ordering rubbers send us, if possible, the exact numbers printed inside of shoes or slipper to be fitted. Also place your shoe on a piece of plain paper and draw an outline of the shoe, mentioning whether it is a high or low heel. A high heel rubber will not fit a low heel shoe, and a low heel rubber will not stay on a high heel shoe.

Correct Fitting Shoes Wear Longer— Always Mention Size and Width on Your Order

The illustration shown above explains how to use the chart. Place a stick at the bottom of the dotted line then adjust the heel of your foot (with stocking on) against the stick as you see in the picture. The number at the end of your big toe is the size you should order.

Be sure to mention dashes and figures.

If your shoes are comfortable, give us all the numbers in the shoe you are now wearing and it will not be necessary for you to use the chart. If you give us this information on your order you will be sure to get the size that will fit correctly. If in any doubt as to the proper size to order, use the chart as directed.

"Yes, these charts are correct and very simple. Before I order a new pair of shoes from Montgomery Ward and Co., I always measure my foot on their shoe size chart. I have learned that if my shoes don't fit right they don't wear as long or look as good, therefore, I use the shoe size chart as directed, to be sure that I get the right size."

A very good way to use the chart is to place the book flat on the floor and have somebody else make a mark at the end of your big toe. The foot should rest firmly on the chart and be sure the heel of your foot is set at the bottom of the dotted line.

Mothers should measure their children's feet on the chart every time they order a new pair of shoes for them. Children's feet grow rapidly and need a larger size almost every time a new pair of shoes are ordered for them.

These Boys' and Girls' Shoes have extra heavy leather toes. Makes the whole shoe wear longer.

Definition of KROMETAN is

KromeTan is our name for a special super-strong sole leather made from over-weight high grade selected hides. There are properties tanned into these hides that turn them into the strongest wear-resisting leather. It is from these hides that KromeTan sole leather is cut. There are various new advantageous substances used in the tanning of these hides which triples their natural strength and at the same time makes them an easy leather to the feet, waterproofed clear through, not merely on the surface. KromeTan improves any shoe soled with it. All the men's shoes on this page are soled with KromeTan, the longest wearing sole LEATHER and are guaranteed to wear six months from date of purchase.

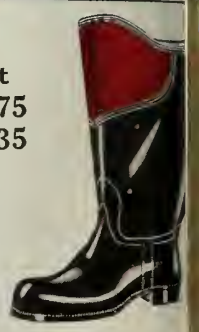
The Patent Pressure Process



BENEFACTOR BENEFACTOR

is a new method of vulcanizing rubber footwear. Thirty or more parts of rubber and fabric are required to make a boot or rubber shoe. After completed it is placed in an air tight chamber where heat is applied under extremely heavy, uniform pressure, which converts the entire boot or shoe into one solid unit. This process has the same effect on the boot or shoe that tempering has on steel. Buy Benefactor Quality Patent Pressure Process rubber footwear and you buy the best.

Lakeside Scissors and Laid-Steel Shears

The Laid-Steel construction is the mark of perfection in shears. The body of the shea is made of toughened steel. On the face of each blade is welded a piece of extra hard, finely tempered steel which forms a lasting cutting surface. If the whole shear was made of this very hard steel, it would be too brittle and very liable to break when accidentally dropped. If the shear was made entirely of the softer steel, it wouldn't break so easily but it would not hold the edge. This is why we offer you only Laid-Steel shears—they mean longer wear and the best of cutting qualities.

Straight Pattern Shears

Splendid values in finish, style and quality. The edges will give long service, and will cut cleanly the softest as well as the heaviest material.

Here's The Strop For Dull Razors
The feature of this efficient strop is that it has **three** stropping surfaces instead of two as in most strops. One of these surfaces is especially treated to sharpen very dull razors. While this strop doesn't do away with the need for a hone, yet you won't have to have your razor honed so often. Leaves the razor an unusually smooth edge—a velvet edge that means clean comfortable shaves. It's a double swing strop, combination barber's canvas and genuine horsehide. Comes broken-in, ready for use. Strongly sewed, nickel-plated hook. Full size, length, 26 inches; width, 2¼ inches.
46C5725—Each..... $1.55
Shipping weight, 7 ounces.

Strops regular style razors and any safety razor blade, to a keen, velvet edge. Gives the diagonal "heel-to-toe" stroke that assures a perfect shaving edge. The diagonal stroke is obtained by setting the bladeholder at an angle to the strop. Far simpler and stronger than the cumbersome mechanism often used. Metal parts nickel-plated. Strop is oiled leather, with a honing surface for very dull blades and a fine finishing side. All broken in, ready for use. Extra holder for safety razor blades. Width of strop, 2¾ inches. Length, 20 inches. Shipping weight, 12 ounces.
46C5734— Each..... $1.15

Automatic Stropper With the True Diagonal Stroke
